13th February 2007

HITACHI GPS SYSTEMS

Models: MMP-401 and MMP-501

Software enhancement dated 13th February 2007

This update adds the following functions:

- Time Zones including daylight savings function
- School Zones

This enhancement will also provide solution to such issues as accidental deletion of red light or speed light cameras from your favourites

IMPORTANT

Before any update please check if your current version has all of the above:

1. Enter the navigation menu
2. Go to Map Options -> Settings (is time zone setting present ?)
3. Go back & select My Places -> My Favourites (do you have My Favourites, CombinedCams, RedLightCams, School-Zone 1 to 5 & SpeedCams?)
4. If the answer is no to any of above please proceed with software enhancement as per instructions below.

INSTRUCTIONS

**Extract zip file from the Hitachi Australia website to hard disk on your PC.
Copy UPDATE folder, DATAREMOVE.UNC & ShincoTest.exe file to SD card
– recommend 256MB**

1. Turn off GPS module
2. Connect AC adaptor to the GPS module
3. Insert SD card (software installed)
4. Turn on GPS
5. You will see Info page. **Please select YES for TEST MODE** and wait for GPS to update itself. This will take approximate 3 minutes.
6. During this time **DO NOT TURN OFF THE GPS MODULE.**
7. On completion of upgrade select **Restart**. GPS unit will turn off.
8. Remove SD Card
9. Restart GPS
