Dimensions

Environment

- **Compliance with EU Directive RoHS¹**
 - **Reduction of resin usage in production**
Use of hot runners in molds for making upper housing in order to reduce mill ends.
 - **Reduction of CO₂ emissions**
Carton volume has been cut down to 65%², reducing CO₂ emissions during transport.
 - **Power saving mode engaged during standby**
 - **Eco mode**
Eco mode provides power saving.
- ¹ RoHS is the acronym of "Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment".
² Compared to Hitachi CP-X2515WN network capable projector on the basis of one carton box.

—Design and specifications are subject to change without notice.

* The projected images and comparison photos in this catalog are simulations. * LCD panels, polarizers and other optical components and cooling fans may need replacement after prolonged usage. For more details, please consult a Hitachi sales representative. * Do not use in places where there is a lot of water, dampness, steam, dust, soot or tobacco smoke. This may result in fire or malfunction. * Optical components (lamp, LCD panel, polarizing plate, PBS [polarizer beam splitter]) have limited service lives. They must be repaired or replaced if they are used for a long period of time. * These projectors use a mercury lamp with high internal pressure. Because of its properties, this lamp may burst with a loud noise or burn out if struck or after it has been used for a period of time. The time until it bursts or burns out varies greatly according to differences between lamps and usage conditions. Turning the lamp's power on and off frequently shortens its service life. * Optical components other than the lamp: If the projector is used for six hours or more per day, they may need to be replaced in less than a year. * LCD panel: If the projector is used continuously for six hours or more, its replacement cycle may be shortened. * Do not turn projector on again for ten minutes after shutdown. Neglect can shorten the lifetime or the lamp. During use and immediately after use, do not touch anywhere near the lamp and the vents as these parts are extremely hot. * Windows[®] is a trademark, or a registered trademark of Microsoft Corporation in the United States and/or other countries. * Crestron Connected and the Crestron Connected Logo are registered trademarks of Crestron Electronics. * MHL, the MHL logo, and Mobile High-Definition Link are trademarks or registered trademarks of MHL, LLC in the United States and other countries. * HDMI, the HDMI Logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries. * ImageCare is a trademark or a registered trademark of Philips Lighting Holding B.V. in the United States and other countries. * All other trademarks are the properties of their respective owners.

ACCENTUALIZER and HDCR

ACCENTUALIZER makes pictures look more real by enhancing shade, sharpness, and gloss, to make pictures clearer. The HDCR function corrects blurred images caused by room lighting or outside light sources and creates an effect similar to increasing contrast resulting in clear images even in bright rooms.

Bright room — ACCENTUALIZER, HDCR OFF → ACCENTUALIZER, HDCR ON

Image Optimizer

Equipped with IMAGE OPTIMIZER, Hitachi's original function that maintains visibility of an image through automatic image correction in accordance with lamp consumption.

• This function may not work properly when HDCR/ACCENTUALIZER is ON.

After long-hour use — Image Optimizer OFF → Image Optimizer ON

Network Function / Capability

Wireless Capability (Option)

The projector is capable of a wireless network with the optional USB wireless adapter that supports IEEE802.11b/g/n. You can control the projector with a computer via the network, and also project the screen of the computer on which the LiveViewer software is installed.

Multi Projector*1

You can project the same image from up to 12*2 projectors simultaneously. This is useful for meetings and lectures in large venues where a single screen would not be sufficient.

Moderator Control Mode*1

Setting one computer from the multiple computers (up to 50*3) that are connected to the projector as the moderator (host) makes it possible for the moderator to project from all the computers (clients).

Projector Quick Connection

You can project images, documents, photos from a tablet or a smartphone on which Projector Quick Connection, the dedicated online application software developed by Hitachi, has been installed. The software allows you to control the projector with the devices.

* See the Hitachi website for details
http://www.hitachi.co.jp/proj/en/apps/pj_connection.html

Projector Monitoring and Control from a Remote Location

Hitachi's Projector Management Software (PJMan) gives you the ability to control, diagnose and manage (monitor the status including power, lamp hours, and temperature and air filter conditions) a single or group of Hitachi projectors.

* The software PJMan can be downloaded from the website
<http://www.hitachi-america.us/projectors>
<http://www.hitachidigitalmedia.com/>

E-mail Alerts

E-mail notification is sent for routine maintenance and error conditions.

*1 To secure better performance, a wired network is preferable. Required to install the LiveViewer software from the bundled CD-ROM on all the computers. The functions are supported by LiveViewer (Windows® application) only.
*2 Image transfer speed may vary depending on number of projectors connected. *3 Image and audio transfer speed may vary depending on number of computers connected.

High Contrast Ratio

2 HDMI inputs

Equipped with 2 HDMI input terminals for the current widely-used interface.

HDMI®
HIGH-DEFINITION MULTIMEDIA INTERFACE

*CP-EX302N, CP-EX252N, CP-EW302N, CP-EX402, CP-EX302, CP-EX252, and CP-EW302 have one HDMI input terminal.

MIC Input*1 and 16W Internal Speaker

The projectors are equipped with a microphone input, so you can use the microphone system, even when the projector is in standby.*2 These projectors also have a built-in 16-watt high power speaker.

*1 MIC input terminal is mounted on CP-X4042WN, CP-X3542WN, CP-X3042WN, CP-X2542WN, CP-WX4042WN, and CP-WX3042WN only.

*2 Not available while the STANDBY MODE is set to SAVING.

MHL® connectivity

The projectors' HDMI2 input terminal supports the MHL (Mobile High-Definition Link). This feature allows you to mirror the screen of your MHL-enabled smartphone / tablet on a projected screen.

Easy Schedule Setting

You can schedule routine and special projector events, including power on, power off, input selection and other settings.

EVENT SCHEDULE	
MONDAY to FRIDAY	
08:00	POWER ON
	INPUTSOURCE COMPUTER IN 1
12:30	INPUTSOURCE HDMI 1
17:00	POWER OFF

Saver Mode

This feature developed by Hitachi, based on ImageCare® technology, reduces the lamp brightness and power consumption, resulting in considerable energy savings. The saver mode automatically activates when the projected image does not change in the preset time (1 to 30 minutes). You can also activate the saver mode manually with the remote controller.

Intelligent Eco Mode

This feature developed by Hitachi, based on ImageCare® technology, automatically changes the lamp brightness according to the input signal level. The lamp brightness is reduced when a darker image is projected, and returns to normal when a brighter image is projected, eliminating unnecessary energy consumption from the lamp.

Other Useful Features

- Auto Vertical Keystone Correction
- Horizontal Keystone Correction
- PC-less Presentation • USB Display
- Compatible with AMX Device Discovery
- Compatible with Crestron Room View®
- Network Bridge
- Auto Eco Mode • Audio Pass Through
- Direct Power On/Off • MyScreen
- My Button • My Memory
- Closed Caption • Security Pin Lock System

Perfect fit

Equipped with Perfect fit with which the position of four corners and four sides of a projected image can be adjusted. With the remote controller at hand, you can quickly correct the distorted image such as pincushion or barrel.

Easy Maintenance

The lamp door is on the top and the filter cover is on the side, so maintenance and replacement of these parts can be done easily.
