High spec features in an LCD projector with increased brightness packed with useful functions

Comparison with EU Directive RoHS®

- Reduction of mains usage in production
- Reduction of EKC emissions
- Power saving mode engaged during standby
- Eco mode

Saver Mode

This feature developed by Hitachi reduces the projector lamp brightness and consumption power, resulting in considerable energy savings. Set the Saver mode time from 1 to 30 minutes, and if the projected image does not change in that time, Saver mode activates. Saver mode can also be activated manually.

Intelligent Eco Mode

This feature developed by Hitachi automatically changes the brightness of the lamp according to the level of the input signal. Lamp brightness is reduced when a darker image is projected, and returns to normal when a brighter image is projected, eliminating unnecessary energy consumption from the lamp.

Eco Mode

Using Eco Mode reduces lamp power to 150W, an approximate 20% decrease compared to 220W when using Normal Mode.

Network Function / Capability

<table>

</thead>
<tbody>
<tr>
<td>You can use a wireless network by connecting the projector to a computer using the optional USB wireless adapter. The adapter supports IEEE802.11b/g/n. Use the adapter cover to prevent the USB wireless adapter from coming off.</td>
<td>You can project the same image from up to 12* projectors simultaneously. This is useful for meetings and lectures in large venues where a single screen would not be sufficient.</td>
<td>These models let you network your computers to the projector, with one computer acting as the moderator. The teacher can use the moderator computer to select and project images from the students’ computers.</td>
</tr>

Convenient Networking

Embedded networking gives you the ability to manage and control multiple projectors over your LAN. Centralized Reporting, Scheduling, E-mail Alerts, and My Image (Image Transfer) functions are also available.

Compact and lightweight LCD projectors with high brightness

- **CP-WX3530WN** WXGA 1280p high brightness, approx. 3.8 kg
- **CP-X4030WN** XGA 4200 lum approx. 3.0 kg
- **CP-EX400** XGA 4200 lm approx. 2.9 kg

- **Smart Device Control**
- **Perfect fit**
- **Mic. Input and 16W internal Speaker**
- **HDMI® Terminal and 2 USB Type A Inputs**
- **Easy Maintenance**

These projectors provide two USB Type A inputs. This makes it possible to use the optional USB wireless adapter and other USB devices. There is also an HDMI terminal allowing you to connect compatible devices to the projectors.

- **3 LCD chips with Inorganic Alignment Layers**
- These projectors incorporate three LCD Panels with inorganic alignment layers that are extremely light resistant, increasing brightness and contrast ratio. They ensure smooth images and high reliability.
